PERSONAL PROJECTS

Bank Audit Module

naveens-audit-module.vercel.app

Bank audit screens for planning audits, reviewing branches and loan cases, and tracking findings. Designed in Google Stitch, exported to VS Code, and implemented further with Codex.

React | TypeScript | Vite

Naveen Manyam Store

naveen-manyam-store.vercel.app

A T-shirt ecommerce store built with Next.js. Personally set up Razorpay and Shiprocket accounts and API credentials, then used Codex to implement the payment and shipping integrations.

Next.js | Razorpay | Shiprocket
